

## COVID-19 Exemption Attestation Form for Contractors

---

September 23, 2021

### COVID-19 Contractor Vaccination Attestation Form

**As of September 27, 2021, Wellstar contractor partners will be required to submit a formal attestation for their exempt, unvaccinated employees.** This attestation indicates that the business has a formal COVID-19 vaccination exemption process in place, which grants exemptions based on medical or religious grounds, and that their employee, who is or will be working onsite at Wellstar, has satisfied the requirements of that exemption process.

**Please fill out the attestation online by clicking [here](#) by September 30, 2021 to attest that your company has an exemption policy (which grants exemptions based on medical or religious reasons) and that your employee has sufficiently met the requirements of your company's exemption process.** The QR code below will also take you to the attestation form. Note that the attestation form must be submitted electronically through the methods provided; paper forms will not be accepted.

**Contractors who are unvaccinated and do not have an approved exemption attestation on file will no longer be permitted onsite as of October 1, 2021.**

Thank you for your cooperation on this matter. We appreciate your continued partnership.
